Somers				*	Woodbury				**
					Woodstock				\$305,416

Methodology

The participation rate indicates the percent of free & reduced price lunch students that eat a free & reduced price school breakfast in any given town through the public schools. The "% change in SBP participation rate" compares rates from . 2005-06 to 2006-07. "Lost Federal Dollars" indicates the potential additional federal reimbursement towns would have received last year if breakfast participation reached 70% of those low-income students participating in school lunch.

* Towns not participating in the federal National School Lunch Program or School Breakfast Program.

** Towns in a regional school district.
